Practical – VIII

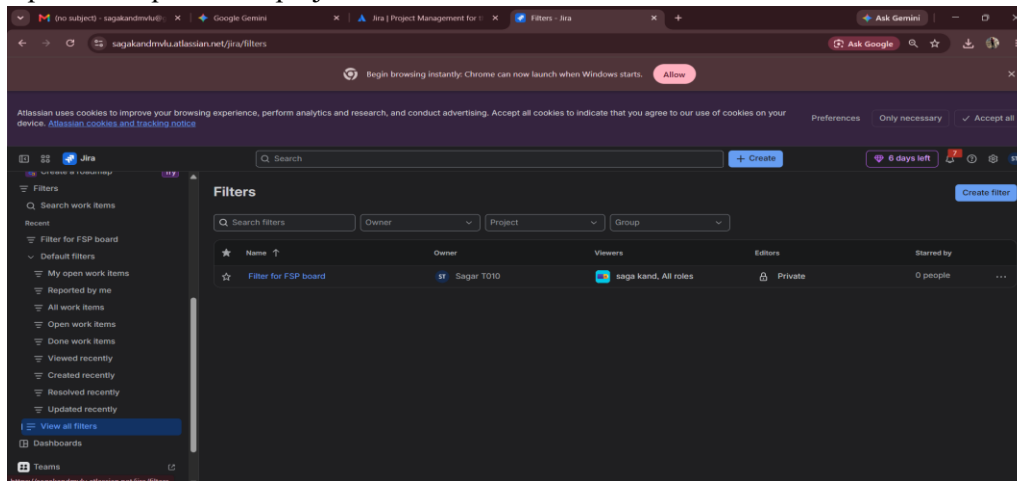

Roll No.: T010	Name:- Sagar Kandari
Class: TYIT	Batch: 1
Date of Assignment: 23/09/26	Date/Time of Submission: 23/09/26

1. Open Jira

Open Jira in your browser.

Log in with your Jira account.

Open the required Jira project.

Sagar Kandari
T010

2. Go to Filters

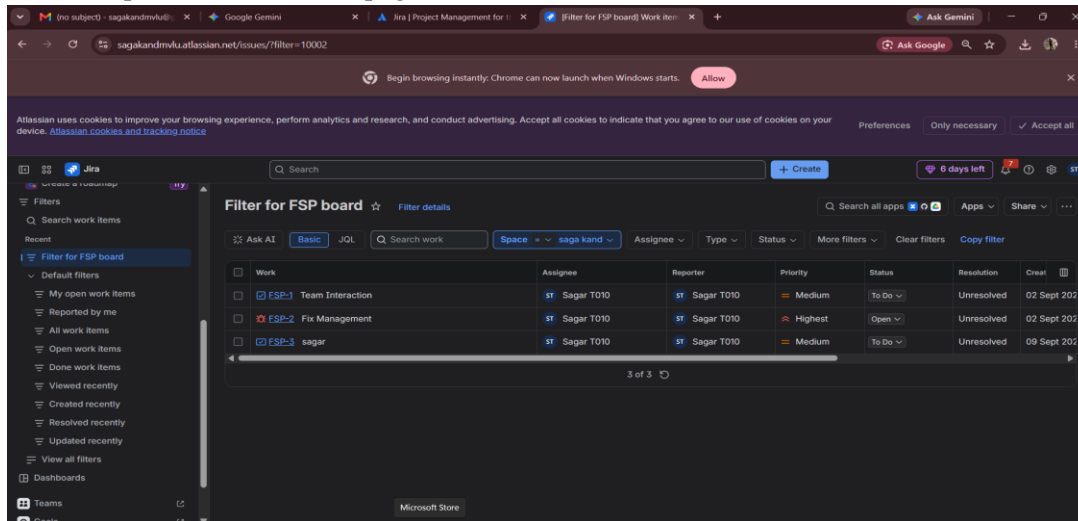

From the top navigation bar, click Filters.

Select View all filters.

3. Create a New Filter

Click on Create filter.

Jira will open the issue search page.

6. Enter a JQL Query

Enter a query according to your requirement.

Example:

project = "My Project"

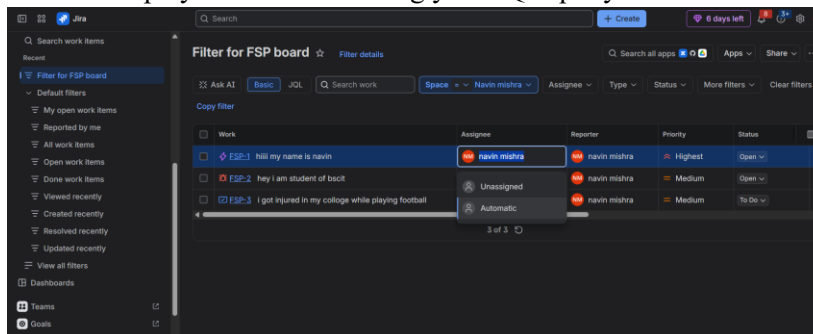

You can also use conditions such as:

project = "My Project" AND status = "To Do"

7. Run the Search

Click Search.

Jira will display all issues matching your JQL query.

Sagar Kandari
T010

8. Check the Results

Verify that the displayed issues match your requirement.

If the results are incorrect, modify the JQL query and search again.

9. Save the Filter

Click Save as.

Enter a suitable name for your filter.

Example: My Project – To Do Issues.
